

CHAMBER NOTES

Delaware Area Chamber of Commerce

SPECIAL COVID-19 RESOURCE EDITION

Welcome to this special edition of the Delaware Area Chamber of Commerce newsletter. Many of our members have special resources related to your business and the COVID 19 mandates and recommendations. Many of our members want to share the good news of their reopening. So we've put together a special newsletter edition for these special announcements.

Chamber family working together!

In addition to this special advertising resource edition, the Chamber would love to celebrate your reopening. Take a photo of your business reopening and email to dachamber@DelawareAreaChamber.com and we'll post it on social media.

Want full service? Chamber staff would love to drop by with the red ribbon and gold scissors and take a ribbon cutting photo to announce your reopening. Hey, you might not be celebrating a new business but they're our scissors and we make the rules. :))) So let's have some fun with getting back to business.

Services and Resources Available

As COVID-19 affects Ohio, SourcePoint continues to provide critical in-home care services to Delaware County adults ages 55 and older, including **Meals on Wheels, emergency response systems, personal care, mental health counseling, and more.**

In addition, SourcePoint offers many **resources for older adults and family caregivers** to stay connected and healthy, both by phone and online.

CUMMINS

facility services

THE SINGLE SOURCE SOLUTION FOR ALL OF YOUR FACILITY SERVICE NEEDS

ELECTROSTATIC TECHNOLOGY OFFERS A REVOLUTIONARY NEW WAY TO GET THE JOB DONE RIGHT.

In facilities where people work, live and play, illness-causing germs can quickly spread on surfaces. Manual cleaning methods and traditional disinfecting tools aren't designed to effectively reach all areas, leaving facilities and tenants at risk of illness.

Electrostatic technology offers a revolutionary new way to get the job done right.

An electrostatic sprayer paired with hospital-grade disinfectants ensures all surfaces – even those hard-to-reach, difficult-to-clean areas – are properly treated. The superior surface coverage helps keep facilities healthier, while also saving time and money. Our disinfectant cleaners kill MRSA, norovirus, and cold and flu viruses to help reduce pathogens like never before.

SINCE 1972, Cummins Facility Services has provided a full range of high-quality facility management services that safely and dependably clean, protect, and maintain our customer's structural facilities.

Headquartered in Central Ohio, CFS has been family owned since inception, and we are a 100% women owned organization.

Delaware County request for property-tax extensions approved

[Delaware County](#) officials announced they have received approval from Ohio Tax Commissioner Jeffrey McClain and the Ohio Department of Taxation for an extension of property-tax payment deadlines in the county.

The deadline for real-property tax collections has been moved from July 10, 2020, to Aug. 20, 2020. The deadline for manufactured-home tax collections has been moved from Aug. 15, 2020, to Aug. 31, 2020.

Late last month, County Treasurer Michael Ringle and County Auditor George Kaitsa submitted their requests for the extensions. The initiative marked the second phase of economic-recovery assistance that Delaware County officials have developed for their residents and business owners due to the COVID-19 pandemic.

Said Ringle: "I am thankful to Commissioner McClain for granting Delaware County's requests. These extensions will be a vital link in helping our residents and businesses make ends meet."

Added Kaitsa: "Treasurer Ringle and I appreciate the assistance provided by Commissioner McClain by granting our request. The extension will help Delaware County's residents and commercial businesses with additional time to pay their property taxes as we start the recovery from the COVID pandemic."

Ringle also reminded property owners that if they know they will miss the now-extended deadlines, they should contact his office to file a Penalty Remission Application in order to avoid accruing late fees. The form can be found online at <https://treasurer.co.delaware.oh.us/forms/> or by calling the Treasurer's Office at 740-833-2480.

Other recovery efforts by county officials have included awarding an \$89,000 grant to the United Way of Delaware County's COVID-19 Community Response Fund, launching a Small Business Assistance Program that provides free business counseling, and creating an Economic Recovery Advisory Team.

Jeff Benton, president of the Delaware County Board of Commissioners, lauded the property-tax extension news.

"Commissioners Barb Lewis, Gary Merrell and I are indeed gratified that the Ohio Department of Taxation moved so quickly to help us help our residents and business owners," Benton said. "We look forward to rolling out more economic-recovery initiatives in the very near future."

For more information about Delaware County's economic-recovery assistance initiatives, visit the Delaware County Economic Development website at: <https://economicdevelopment.co.delaware.oh.us/covid-19/>.

INFECTION PREVENTION SERVICES FOR OUTDOOR ENVIRONMENTS

Maintaining site cleanliness with preventive disinfectant treatments can help reduce the risk of infection outbreaks and illness transmission to your residents, tenants, guests, employees and site visitors.

High-touch outdoor surfaces can harbor infectious viruses and other pathogens, especially during warm weather unless appropriate mitigation steps are taken. Protect your guests with Woodland Environment’s Site Sanitization Services.

Woodland’s Site Sanitization Services include:

- Sanitizing hard surfaces and high-touch areas with a non-corrosive EPA disinfectant for emerging pathogens that is safe for your landscape and hardscape materials
- Applications performed by properly certified and trained company personnel to ensure that safe, effective treatment protocols are followed
- Flexible application schedules to make sure your site is fresh and disinfected at the optimal time for your users and guests

Effective non-corrosive disinfectants can be applied to high-touch surfaces, including:

- Benches
- Handrails
- Bike racks
- Signposts
- Dumpster enclosures
- Gates
- Light bollards
- Community mailboxes
- Patio and pool furniture
- Keypads
- Outdoor grills
- Playground equipment
- Exercise equipment
- Dog waste stations

Protect your guests with Site Sanitization Services!
Call Woodland Environment today at 614.354.0768 to discuss customized disinfection services for your site.

WOODLAND ENVIRONMENT
GROUNDS MANAGEMENT

Infection Prevention Services for Outdoor Environments

Woodland's Site Sanitization Services provide protection and peace of mind

While no one anticipated the coronavirus pandemic, Woodland Environment is well-positioned to help you maintain site cleanliness and apply preventive disinfectant treatments with existing equipment and staff.

- The precision application equipment we use to mix and apply brine for de-icing and snow pre-treatments has been redeployed for disinfectant applications.
- Woodland staff are certified and trained to safely handle landscape pesticide applications. The EPA-approved disinfectant cleaners that kill pathogens are overseen by the same or sister regulatory agencies.
- Crews are available seven days per week with flexible work hours to accommodate the activities on your site.
- As landscape professionals, we thoroughly understand how to care for and protect your landscape plants, site furnishings and hardscapes. Woodland's disinfectant applications are non-corrosive and safe for plants and people.

Make sure your outdoor environment is fresh and disinfected for your employees and visitors to enjoy. Contact us today!

Jeff.Rupp@WoodlandEnvironment.com

About Woodland Environment

Woodland Environment is a grounds management contractor providing comprehensive landscape care for commercial properties throughout central Ohio.

Woodland has experienced, right-size teams that help "highly-valued landscapes" thrive. Highly-valued landscapes—those special settings that are intensively used and frequently enjoyed, such as the main entrance of a hotel or corporate office or the gardens at an assisted living center—include high-touch surfaces that need to be regularly sanitized to reduce infection risk.
